

iPhone Version: Legend

Superscript showing equivalent Dewanaagari (or Tamil) letter.

Press this button to toggle between upper and lower case.

Press this button to go to numbers and symbols keyboards.

Press this "World" button to toggle between the various language keyboards that you have installed on your phone (including English, French, Navlipi, etc.). The MENU at left will then appear.

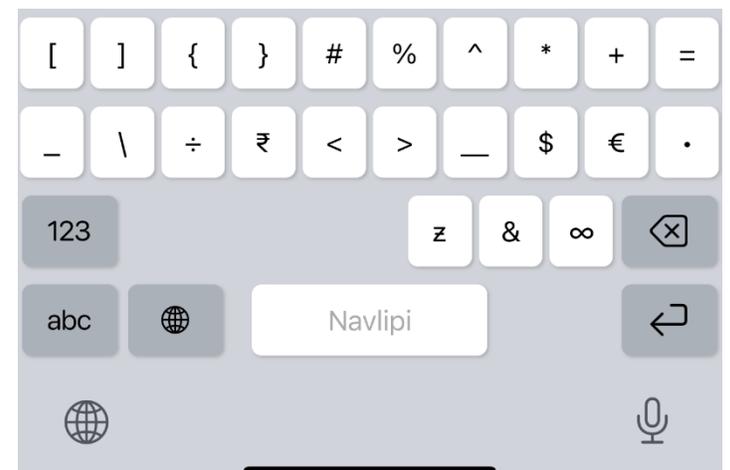

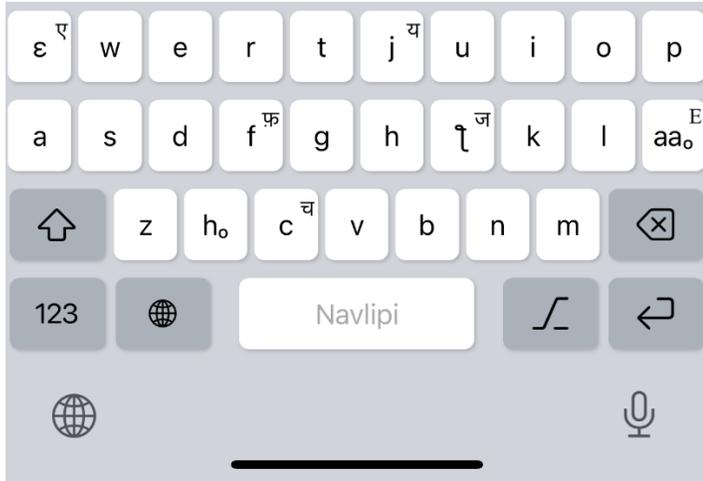

Superscript "E" indicating that this letter is specifically applicable to Western European languages. "M" indicates Mandarin

Press this button to toggle between the 2 Navlipi keyboards.

The image displays an iPhone keyboard with several annotations. Arrows point from text boxes to specific keys: the 'ए' key (superscripted), the shift key (toggle between upper and lower case), the '123' key (numbers and symbols), the globe icon (toggle between language keyboards), the 'E' key (superscripted), the 'M' key (superscripted), and the key with two keyboard icons (toggle between Navlipi keyboards). Below the keyboard is a screenshot of the 'Keyboard Settings...' menu. The menu lists several keyboard options: English (US) (highlighted in blue), Emoji, Navlipi Universal — Navlipi (Multiple languages), Français (France), हिन्दी (A→अ), हिन्दी, தமிழ், मराठी, Kiswahili, संस्कृतम्, and Navlipi Hindi — Navlipi (Hindi). At the bottom of the settings menu are three keyboard icons: a standard QWERTY keyboard, a Navlipi keyboard (highlighted in blue), and another keyboard icon.
